

## Internet and Wifi

<b>Internet Service Provider Name</b>	<b>Connection Type</b>	<b>Speed</b>
Omkar Infotech	Lease line	500 mbps
Airtel	Broad Band	300 mbps
Jio	Broad Band	100 mbps

A college campus is equipped with five wireless access points strategically placed to ensure complete network coverage across the premises. These access points provide reliable internet connectivity in classrooms, offices, libraries, and common areas, allowing students and staff to access online resources seamlessly. By distributing the network load efficiently, the system helps maintain stable connections even during peak usage. This setup supports modern teaching methods, digital learning, and administrative activities, creating a connected and technology-enabled academic environment.
